FOR YOU!"**

"We're a diamond drilling company. Our boys are 6,000 feet up the side of a glacier. They need quality gear. Junk doesn't survive. That's why we choose Imagewear. At Christmas we give employees gifts like engraved watches. That's when having a local sales rep is really an advantage. Stuart talks to the engraving people, handles all the details, and keeps in touch with us to make sure we get exactly what we want."

**"OUR STAFF SEEMS TO BE SO HAPPY WEARING THESE SHIRTS. THEY'RE TAILORED AND NICE LOOKING."**

"We order logoed dress shirts for every department in the hotel. Staff doesn't like to wear things that are ugly. Just the idea of a uniform tends to create that perception. But you know what? They're tailored and nice looking. The women's shirts are darted so they have a bit of shape versus unisex that looks horrible on most people. And it's convenient to get the shirts and logos all in one place."

*— Heather McIntyre, General Manager, Westmark Whitehorse Hotel*

# YOUR PLANS SHOULD INCLUDE FLAME-RESISTANT WORKWEAR.

More of today's work sites require FR protection. So Imagewear offers a huge range of flame-resistant garments designed to extinguish almost immediately upon removal of the ignition source. This gives your employees more time for escape, minimizing injuries and saving lives. Wherever there's a risk of sparks or flame, plan for maximum FR protection from Imagewear.
